Our Mission

Student Affairs aims to develop curious, purpose-driven students with the courage to both contribute and lead in their communities. We create an atmosphere of learning that promotes self-awareness, skill development, empowerment and authorship among our students. Service-based learning, cultural conversations, recreational events, student organizations and leadership development create more opportunities for practical application of knowledge. Through problem solving and self-reflection, students will discover the principles that will guide their lives beyond the university. Students will realize UB’s commitment to Knowledge That Works through the fundamental application of learning in their careers and communities.

1,080 students were served by 4,724 hours of tutoring, writing consultations and learning skills coaching. 

Achievement and Learning Center
