

Adding a second MultiFactor Authentication Factor to OneLogin

After successfully logging in, go to the profile

The screenshot shows the OneLogin user interface. At the top right, a user profile card for 'MARY' is visible. Below it, a dropdown menu is open, with the 'Profile' option highlighted by a red rectangular box. Other options in the menu include 'Legacy Profile' and 'Log out'. Below the search bar, there are tabs for 'Frequents' and 'SPS: Everything'. A card for 'Production' with an 'SPS' logo is displayed below the tabs.

Select Security Factors. Then click on Add Factor

The screenshot shows the 'Security Factors' page in OneLogin. On the left sidebar, the 'Security Factors' menu item is highlighted with a red box. In the main content area, the 'Add Factor' button is highlighted with a red box and a red arrow pointing to it. Below the button is a table of existing security factors.

Factor	Details	Last Used	Used For
Primary			
 OneLogin Protect	Samsung SM-G975U Android 10	22 minutes ago	 
 Email		2 months ago	

Choose which factor you want to add. Fill in the information requested.

To change your preferred (primary) authentication method

After you've added your authentication factors, you can determine which one you want to be your primary method.

Click on the 3 dots next to your preferred authentication factor. Click Set as primary.

The screenshot shows the 'Security Factors' management page. At the top, there is a title 'Security Factors' and a subtitle 'Manage security factors to verify your identity when you sign in or reset your password.' Below this is an 'Add Factor' button. The main content is a table with the following columns: Factor, Details, Last Used, and Used For. The first row is highlighted in green and labeled 'Primary' on the left. It contains a fingerprint icon, the name 'OneLogin Protect', the device details 'Samsung SM-G975U Android 10', the text '3 hours ago', and a key icon with a speech bubble. A three-dot menu is visible to the right of this row. The second row contains an email icon, the name 'Email', the text '2 months ago', and a key icon. A context menu is open over the three-dot menu of the first row, listing the following options: 'Set as primary', 'Edit name', 'Remove', and 'Show details'.

Factor	Details	Last Used	Used For
Primary OneLogin Protect	Samsung SM-G975U Android 10	3 hours ago	Key icon with speech bubble
Email		2 months ago	Key icon
