X	N. This Cover Sheet	Q. Full 5-page MHEC Proposal	T. Other
X	O. Summary Proposal	R. Financial Tables (MHEC)	
X	P. Course Definition Document	S. Contract	

- Approval of experimental course automatically lapses after two offerings unless permanently approved as a new course.
- Codes: a) Library Services (Langsdale or Law) b) Office of Technology Services c) University Relations d) Admissions
- Letter of Intent is required by USM at least 30 days before a full proposal can be submitted. Letter of Intent requires only the approval of the dean and the provost and is forwarded to USM by the Office of the Provost.
- One-page letter to include: Program title & degree/certificate to be awarded; resources requirements; need and demand; similar programs; method of instruction; and oversight and student services (MHEC requirement)
- One-page letter with description and rationale (MHEC requirement)
- One or two-page document that describes: centrality to mission; market demand; curriculum design; adequacy of faculty resources; and assurance program will be supported with existing resources. (MHEC requirement)
- Learning objectives, assessment strategies; fit with UB strategic plan
- Joint Degree Program or Primary Degree Programs require submission of MOU w/ program proposal. (MHEC requirement)
- Temporary suspension of program to examine future direction; time not to exceed two years. No new students admitted during suspension, but currently enrolled students must be given opportunity to satisfy degree requirements.

SCHOOL: LAW <input type="checkbox"/> MSB <input type="checkbox"/> YGCLA <input checked="" type="checkbox"/>
SHORT DESCRIPTION OF PROPOSAL (state name of action item 1-20 and course name, code & number / program affected):
#8 – new course – BIOL 101 Humankind and the Biological World

10. Provide:
- evidence that the action is consistent with UB mission and can be implemented within the existing program resources of the institution.
 - proposed date after which no new students will be admitted into the program;
 - accommodation of currently enrolled students in the realization of their degree objectives;
 - treatment of all tenured and non-tenured faculty and other staff in the affected program;
 - reallocation of funds from the budget of the affected program; and
 - existence at other state public institutions of programs to which to redirect students who might have enrolled in the program proposed for abolition.
11. University Council review (for a recommendation to the President or back to the Provost) shall be limited to curricular or academic policy issues that may potentially affect the University's mission and strategic planning, or have a significant impact on the generation or allocation of its financial resources.

C. College Dean	Dean: <i>[Signature]</i>	<i>1/4/07</i>
D. Provost and Senior Vice President for Academic Affairs	Provost: <i>Jude A. Ferrell</i>	<i>1/18/07</i>
E. Curriculum Review Committee (UFS subcommittee)	Chair: <i>Amalaki Gellayan</i>	<i>1/23/07</i>
F. University Faculty Senate (UFS option)	Chair:	
G. University Council (see # 11 above)	Chair:	
H. President	President:	
I. Board of Regents – notification only		
J. Board of Regents – approval		
K. MHEC – notification only		
L. MHEC – approval		
M. Middle States Association notification	Required only if the mission of the University is changed by the action	

DOCUMENT O: SUMMARY PROPOSAL

See Course and Program Development Policy and Procedures for Instructions

SCHOOL: LAW <input type="checkbox"/> MSB <input type="checkbox"/> YGCLA <input checked="" type="checkbox"/>	Contact Name: Peggy Potthast	Phone: x5342
DEPARTMENT / DIVISION: Office of the Dean		
SHORT DESCRIPTION OF PROPOSAL (state action item 1-23 and course name & number or program affected):		
#8 – new course – BIOL 101 Humankind in the Biological World		
PROPOSED SEMESTER OF IMPLEMENTATION: Fall <input checked="" type="checkbox"/> Spring <input type="checkbox"/> Year: 2007		

O-1: Briefly describe what is being requested:

We are requesting to add a new course, BIOL 101 Humankind in the Biological World, to the curriculum to meet general education needs in non-laboratory science. This is a revision of BIOL 300 Man in the Biological World and if BIOL 101 is approved, BIOL 300 will be deactivated.

For new courses or changes in existing courses (needed by Registrar)

OLD Title:	Course # / HEGIS Code:	Credits:
NEW Title: Humankind in the Biological World	Course # / HEGIS Code: BIOL 101	Credits: 3

O-2: Set forth the rationale for the proposal:

We want to build science courses that meet general education needs of students as required by MHEC.

Document P: Course Definition
Humankind in the Biological World

1. Prepared November 18, 2006.
2. Prepared by Ronald Castanzo and Peggy Potthast
3. Department: College of Liberal Arts
4. Course Number: BIOL 101
5. Course Title: Humankind in the Biological World
6. Credit hours: 3.0
7. Catalog Description:

THIS COURSE SATISFIES THE NON-LABORATORY SCIENCE GENERAL EDUCATION REQUIREMENT.

Deals in a broad sense with how humans interact with, affect, and are affected by other organisms. Presents an overview of the history of scientific thought, including important persons, shifts in philosophy, and technological innovations. Pathogenic organisms, genetic predisposition and natural immunity to disease, as well as disease treatments and cures, are discussed. Addresses the ways that human activities such as hunting, commercial fishing, and deforestation have had an impact on other life on Earth.

8. Prerequisites: None
9. Faculty qualified to teach course: Master's Degree in biology or some other field of natural science (e.g. chemistry, environmental science, geology, etc.); new hire or adjunct
10. Course Type/Component: lecture
11. Suggested approximate class size: 30 students
12. Content Outline:

<i>Week</i>	<i>Topics</i>
1	Scientific thought in prehistory; Ancient Greece and Rome
2	Science in non-Western society: India, China, and the Muslim World
3	Middle Ages, Enlightenment, and beginning of modern science
4	Rise of medicine; cell structure
5	DNA; diversity of microorganisms
6	Acellular and prokaryotic microbes
7	Microbial physiology; environmental microbiology
8	Epidemiology; microbial ecology
9	Diagnosing infectious disease; host defense mechanisms; antibiotics
10	Medicine in the 20 th century; bacterial, viral, and fungal diseases; parasitic diseases
11	Human ecology; sustainable development; ecosystem organization

- 12 Human population growth and regulation; ecological succession
- 13 Co-evolution and co-adaptation of human social systems and ecosystems
- 14 Ecosystem services; perceptions of nature
- 15 Unsustainable and sustainable human-ecosystem interactions

13. Learning Goals:

- I. to understand the basic terminology, fundamental concepts, and significant persons in the fields of environmental science, genetics, cell biology, botany, zoology, epidemiology, and ecology;
- II. to be able to extract and summarize information from a peer review journal article dealing with environmental science, genetics, cell biology, botany, zoology, epidemiology, and ecology;
- III. to understand how science is conducted (including the construction and testing of hypotheses) and what distinguishes scientific fields from other types of disciplines;
- IV. to understand the connection between fundamental principles and concepts of the biological sciences and the natural phenomena they encounter in their everyday lives.

14. Assessment Strategies:

- I. frequent quizzes and/or short assignments (e.g. observational studies, completion of take-home questions, etc.);
- II. at least two exams, including a final exam;
- III. writing assignments (stressing scientific format and writing) that require students to utilize, on a limited basis, the peer review literature (articles chosen by the instructor are suggested);
- IV. field trip reports, oral presentations, and other kinds of assessment tools are possible, but not essential, for the instruction of the course.

15. Suggested texts:

Burton, G. and Englekirk, P. 2003 *Microbiology for the Health Sciences*. Lippincott Williams & Wilkins.

Kennedy, M. T. 2004 *A Brief History of Disease, Science & Medicine*. Asklepiad Press.

Marten, G. G. and Strong, M. 2001 *Human Ecology: Basic Concepts for Sustainable Development*. Earthscan/James & James.

Other appropriate texts:

Clarke, S. C. 2004 *Modern Medical Microbiology*. Arnold Publishers.

Myers, J. P., Reichert, J., and Daily, G. C. 1997 *Nature's Services: Societal Dependence on Natural Ecosystems*. Island Press.

Gribbin, J. 2003 *Science, A History*. Penguin Books, Ltd.

Kormondy, E. J. and Brown, D. E. 1998 *Fundamentals of Human Ecology*. Prentice Hall.

Lindberg, D. C. 1992 *The Beginnings of Western Science: The European Scientific Tradition in Philosophical, Religious, and Institutional Context, 600 B.C. to A.D. 1450*. University of Chicago Press.

General Education Approval Record

College of Liberal Arts

(to be used for "certifying" new and existing courses; use information about proposed course)

Course: Subject and Number (e.g., MATH 208) BIOL 101

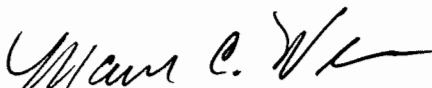

Course Name: Humankind and the Biological World

Division sponsoring the course: Office of the Dean, College of Liberal Arts

THIS COURSE SATISFIES 3 CREDITS OF THE **Science** GENERAL EDUCATION REQUIREMENT.

This course meets the following learning objectives of that general education requirement:

1. To achieve scientific literacy including proficiency in evaluating reports on science, discriminating among sources, and presenting the concept of peer review;
2. To discriminate science from non-science and to demonstrate that science constitutes the testing of hypotheses about natural phenomena through observation;
3. To know how to access specific scientific information on a topic;
4. To attain familiarity with some of the tools of science and to have opportunities to use technology to gather and process data;
5. To acquire proficiency in the quantitative aspects of science, with an appreciation of the role of variability in the quantitative evaluation of data; and
6. To demonstrate an understanding of the fundamental concepts of the discipline(s).
