The next two tables address indirect expenses related to going to school that will not appear on your college bill. Estimated student budgets for personal living expenses reflect typical modest but adequate expense patterns of UB students.

Estimates are based on research conducted by the Office of Financial Aid and include average costs for books, supplies, and other miscellaneous living expenses. These are added to the total direct cost from the previous tables to obtain your total projected cost of attendance (COA). These estimated rates are subject to change.
