The next tables address indirect expenses related to going to school that will not appear on your university's bill. Estimated student budgets for personal living expenses reflect modest and adequate expense patterns of UB students. **The indirect expenses are based on the 15-week length instructional time each semester.**

Estimates are based on research conducted by the Office of Financial Aid and include average costs for books, supplies, and other miscellaneous living expenses. These are added to the total direct costs from the previous tables to obtain your total projected cost of attendance (COA). These estimated rates are subject to change.
