

University of Baltimore
Student Outcomes Summary Sheet

Placement in Employment and Job Placement Rates:

The Office of Career and Professional Development conducts exit surveys to determine the employment of recent graduates of UB's undergraduate programs. Information about the most recent destination survey can be found at <http://www.ubalt.edu/campus-life/career-center/about-us/facts-and-figures.cfm>.

For a list of companies that hired UB graduates, see Where Do UB Graduates Work:

<http://www.ubalt.edu/campus-life/career-center/career-services-online/where-do-ub-graduates-work.cfm>

The American Bar Association requires all schools of law that it accredits to post its placement rates. For information about the job placement of graduates of the School of Law, see

http://law.ubalt.edu/about/aba_disclosures.cfm and related links at that page.

Types of Graduate and Professional Education in which UB Graduates Enroll:

Individual program directors can provide specific information to students about where recent graduates have gone on to work or study in graduate and professional programs. UB offers 4+1 programs in certain fields, and the School of Law has an automatic admission policy that UB undergraduates may use. The **annual destination survey** conducted by the UB Center for Career and Professional Development identifies this information. For results of the spring 2015 survey, see <https://www.ubalt.edu/campus-life/career-center/about-us/images/Destination%20Survey%20Spring%202015.pdf>.

Much general information about UB student outcomes, including graduation and retention rates by cohort, can be found on UB's College Navigator page:

<http://nces.ed.gov/collegenavigator/?q=University+of+Baltimore&s=all&id=161873>

The College Navigator does not include rates disaggregated by Pell eligibility; these are as follows:

2-Year Retention Rate for Fall 2014 Entering Cohort (first-time, full-time U/G):

Pell recipients	73%
Non-Pell	68%

6-Year Graduation Rate for Fall 2010 Cohort (first-time, full-time U/G)

Pell recipients	33%
Non-Pell	40%
