

SEARCHING MULTIPLE DATABASES IN RESEARCH PORT WITH "CROSS SEARCH"

Research Port is the gateway to Langsdale Library's electronic resources. It enables you to access the library's subscription databases and locate additional web resources. You may search multiple databases in Research Port and access links to full-text resources. You may also customize your own Research Port, adding favorite databases and online journals, storing searches for later use, search alerts and saving articles (see Customizing Research Port).

The Cross Search feature allows you to search up to databases simultaneously.

1) Select the Cross Search Tab

2) Select a major subject area for the databases. You may also create your own list of databases to search (see the Customizing Research Port guide to learn more).

3) Check the databases you would like to search

4) Type your search terms and click **go**
