

ACCELERATED BACHELOR'S/MASTER'S PROGRAM APPLICATION

Some UB graduate programs provide accelerated pathways for exceptional students. To apply, students must have an undergraduate GPA of at least 3.5 through at least 90 credits, with at least 15 credits earned at UB, and be admissible to the graduate program to which they wish to accelerate. Students admitted to an accelerated option may earn up to 9 graduate credits (charged at undergraduate rates) within the last 30 credits of the bachelor's degree; these 9 may be applied to both the bachelor's and master's degrees if the student remains continuously enrolled at UB, maintains a 3.5 grade-point average in undergraduate courses, and earns at least a 3.0 in the graduate courses. **Other admission criteria may apply for permission to proceed with the master's degree.**
