

Overview:

Zoom is integrated into Panopto and allows for seamless uploads of video files directly to your course, department or personal (My folder) locations in Panopto. During the start of the semester, you will be required to setup a few things to get started using this feature with your Zoom account. All videos will be closed caption and be available to your students via your Panopto folder link in Sakai. **Note:** Once the recording is moved to Panopto it will be deleted from the Zoom Cloud. Any files left in the Zoom Cloud will be deleted at the end of each week

Please see the steps below to have this set up.

1. Make sure that you have a Panopto folder from Sakai
 - a. Use this link for directions on how to create your Panopto folder via Sakai
