

Class Rank

Class Rank is conducted each June for students in the JD program. Once assigned, your class rank remains the same until the next annual computation of class rank the following June.

Students may access their class rank through the MyUbalt Student portal under Tools.

NOTE: Class rank GPA rounds to three decimal points, to minimize ties. However, your official transcript GPA is rounded to two decimal places. For resumes and applications, always use the GPA shown on your transcript, as it is the verified value.
