

Spring Into Success

Career Tips and Graduation Updates from the Career & Internship Center

Spring is in the air, and with it comes new beginnings and exciting opportunities!

As the semester winds down, we know many of you are focused on final projects, exams, and — for some — graduation. Whether you're preparing to step into the workforce or looking for summer internships, the Career and Internship Center is here to support you every step of the way.

If you're graduating this May, Congratulations! Be sure to:

Confirm your graduation requirements – Double-check that you've completed all necessary coursework and submitted your graduation application.

Order your cap and gown – Visit the UBalt Bookstore to make sure you're ready for the big day.

Stay Connected – Just because you're graduating doesn't mean the support ends! You'll still have access to career services, including resume reviews, job postings, and networking events.

Whether you're seeking an internship or full-time job, here are some key tips to keep in mind this season:

Make an appointment to meet with your Career Coach– The sooner the better.

Polish Your Resume – Highlight recent projects, leadership roles, and any skills gained during the semester.

Update Your LinkedIn Profile – Employers are actively seeking talent online — make sure your profile reflects your most recent achievements.

Attend Career Fairs and Networking Events – Keep an eye on the Career and Internship Center's calendar for upcoming opportunities to connect with potential employers.

Need help with your job search, preparing for interviews, or exploring career options?

Schedule an appointment with the Career and Internship Center today. We're here to help you finish strong and take the next step toward success!

Wishing you a successful end to the semester and a bright future ahead!

Once you start your career you are the primary manager of your professional development and success. Although career management takes on many forms, it all starts with setting clear personal goals and seeking out the people and tools to help you meet them.

This video shares best practices from seasoned professionals who have successfully navigated their own careers and are eager to help you navigate yours!
